Proposed Amendments to National Instrument 81-102 *Investment Funds*

October 19, 2023

Introduction

The Canadian Securities Administrators (**CSA** or **we**) are proposing amendments to facilitate a voluntary decision by a mutual fund to shorten the settlement cycle for purchases and redemptions of its securities from two days after the date of a trade (**T+2**) to one day after the date of a trade (**T+1**) in anticipation of a reduction of the settlement cycle for equity and long-term debt market trades in Canada to T+1.

We are publishing for a 90-day comment period proposed amendments (the **Proposed Amendments**) to National Instrument 81-102 *Investment Funds* (**NI 81-102**).

The text of the Proposed Amendments is contained in Annex A of this Notice and will also be available on the websites of the following CSA jurisdictions:

Summary, Substance and Purpose

The purpose of the Proposed Amendments is to accommodate a range of settlement cycles and particularly for those mutual funds that voluntarily decide to shorten the settlement cycle for purchases and redemptions of their securities from T+2 to T+1 when the underlying assets held by the fund move to a T+1 settlement cycle.

The Proposed Amendments introduce drafting changes to clarify that payments must be made no later than the reference settlement date of the purchase order. The reference settlement date of the purchase order is the business day determined by the mutual fund and disclosed in writing to the principal distributor, the participating dealer, or the person or company providing services to the principal distributor or participating dealer, which must be on or before the second business day after the pricing date.

The Proposed Amendments also introduce a change to paragraph 9.4(4)(a) of NI 81-102 to require a mutual fund that voluntarily decides to shorten the settlement cycle for purchase or redemption of its securities from T+2 to T+1 to redeem its securities for non-payment on the next business day after the reference settlement date of the purchase order, which would be on T+2 rather than T+3 as currently required.

Background

On December 15, 2022, the CSA published for comment proposed amendments (the **NI 24-101 Amendments**) to National Instrument 24-101 *Institutional Trade Matching and Settlements*. Among other things, the NI 24-101 Amendments focus on facilitating the shortening of the standard settlement cycle for equity and long-term debt market trades in Canada from T+2 to T+1.

Concurrent with the publication of the NI 24-101 Amendments, CSA staff published CSA Staff Notice 81-335 *Investment Fund Settlement Cycles (Staff Notice 81-335)*. Staff Notice 81-335 explained that CSA staff did not propose to amend sections 9.4 and 10.4 of NI 81-102 to mandate the shortening of the settlement cycle for primary distributions and redemptions of mutual fund securities from T+2 to T+1. However, it was CSA staff's view that mutual funds should settle primary distributions and redemptions of their securities on T+1 voluntarily if the standard settlement cycle for listed securities moves from two days to one day in Canada.

The comment period for the NI 24-101 Amendments closed on March 17, 2023, and we received one comment letter regarding Staff Notice 81-335. The commenter stated that, to facilitate a voluntary decision by a mutual fund to shorten the settlement cycle for purchase or redemption of its securities from T+2 to T+1, a technical amendment to the forced redemption for non-payment requirement in paragraph 9.4(4)(a) of NI 81-102 should be made. The commenter noted that the intent of paragraph 9.4(4)(a) of NI 81-102 is that a mutual fund must redeem its securities that were issued to a purchaser if the purchaser fails to pay for those securities the day after settlement. Because settlement is currently required on T+2, current paragraph 9.4(4)(a) of NI 81-102 effectively mandates redemption three days after the date of the trade (**T+3**). If a mutual fund voluntarily shortens its settlement cycle for a sale of its securities to T+1, the mutual fund should be required to redeem for non-payment on the date after settlement, which would be on T+2 rather than T+3.

Without the Proposed Amendments, current paragraph 9.4(4)(a) of NI 81-102 would make a voluntary movement to a T+1 settlement cycle by a mutual fund administratively challenging because it could not redeem its securities for non-payment until two days after the settlement date.
